To whom it may concern:

I would like to express my contribution to the
best system service known as ~~LPF~~ ^{LPF} in my region, we
enjoy FM transition service for our favorite ~~LPF~~ ^{LPF} signal K-LVE
on 89.1 in Annville. Our transition is forced off the
air on certain by greatly weakened, if the proposed change
go into effect the LPF's are given priority, I'm sure they
enjoy the same family - quality programming K-LVE always
provides my area. Please consider my request + continue to
provide with valuable station signal. Sincerely,
Ethene G. Balle

RE: MB Docket No. 04-233

DOCKET FILE COPY ORIGINAL

Dear FCC,

I recently read of the issue affecting the future of one of my favorite radio stations, K-Love, making LPFM translator priority over FM translator service. Please do not allow this to happen. K-Love is one of the few radio stations which I really enjoy listening to, serving the community with a positive impact on society. I think it is very important to broadcast this type of news and music, and radio stations like this are hard to find. Please do not change services which would make it hard to receive this station.

Concerned Citizen.

Sincerely,

Kathy Gebhardt

To Whom It May Concern:

This letter concerns the recent FCC consideration of using Low Power FM for the K-Love radio station.

K-Love is extremely important to me as a resident of Denver, Colorado. I listen to it on a daily basis and it serves to give me support and encouragement as I move through my day.

It also serves as an outreach program for many people who currently do not have any base in a church. It encourages them, gives comfort and a way to find a spiritual base for themselves. If this were to become inaccessible for these people many would have no access to the information and spiritual support it currently offers.

K-LOVE staying on the air in its current form does serve the public interest. It is clearly another viewpoint and lifestyle that is in stark contrast to the rest of the information and music that is currently on the airwaves.

I encourage and implore you to reconsider this decision to change the status of K-Love. Many people would be deprived of a wonderful and comforting radio station.

DOCKET FILE COPY ORIGINAL

FCC, Dear Sirs,

I am writing in reference to MB Docket No. 04-233. I am a listener of Christian music on my local FM 89.3. I listen to K-Love which is broadcast nationally through FM translators. I would hate to lose this music due to the use of low-power FM transmissions.

Non-profit K-Love has provided encouraging Christian music to me in Colorado as well as my travels across the United States. They provide a service to me and my faith in God and Jesus Christ. K-Love provides people with a positive message which has given me peace and joy.

If LPFM is put in use I hope priority be given to existing stations/music providers. I am concerned that I will lose my K-Love if LPFM is implemented. That fact would be most disheartening. K-Love music radio is both positive and encouraging and I believe serves the public quite well. Please keep the best interests of the people served. God Bless.

Sincerely,

Bruce E. Sandeen

to whom it may concern:

My family listens to K-Love (90.7 FM) in
 the Norfolk/Va. Beach area because it has
 family-friendly programming. If it were
 to be replaced by an LFM it would be a
 great disservice to thousands of families
 in this area. It is in the public interest
 to retain the service provided by K-Love
 which is its support for wholesome values
 in its programming and it has a positive
 & encouraging impact on communities all across
 the US. Please do not allow this public
 service to be replaced. Sincerely, Steve's check

RE: MB Docket No. 04-233

Dear FCC:

I have been a faithful listener of KLOVE Radio since 1997 when my late husband died. The music and features of the station as well as the positive outlook of the staff, management, and announcers/radio personnel helped me through the difficult time of grief. I have continued to listen to KLOVE ever since. My local KLOVE stations 91.9, 88.9, and 99.3, are the only stations my car radio is tuned to so I can listen wherever in the Bay Area I am driving, and they are also the only ones that my radios at home are tuned to. When I travel I always look for a KLOVE station or translator station to listen to, and have a hard time finding suitable replacements when one is not available. I have found that I stay centered and less anxious when I listen to KLOVE radio stations. (I also sing along, and I get music ideas for my husband who is the music director at our church.) Our weekly gatherings at church for our teens, and their friends who are not affiliated with our church, tunes KLOVE in on the radio and plays it over the PA system, and the kids love it, sing along and dance. The parents at our church say it is the one station that they can have on in the car that everyone can listen to and the parents do not have to worry about the smaller children hearing inappropriate language or topics either in the lyrics or in the programming in general. I support KLOVE and their outreach in the communities that they serve throughout the US.

I cannot imagine getting through my day without being able to listen to a KLOVE station, and would be livid if it were pre-empted for another station with another kind of programming. As I mentioned, this is the only station I know of of its kind where everyone can listen regardless of age. I think it would be grossly inappropriate (for lack of a stronger word) to allow a new LPFM station to pre-empt an existing FM translator service station.

KLOVE and many other existing LPFM stations provide a wonderful service to the public, and should not be summarily replaced for a new station. Many people all over this country listen to KLOVE who have no church affiliation whatsoever, and they listen because it is a station that everyone in the family can listen to.

Please do not cause this existing station and its translators to be forced off the air.

Thank you.

DOCKET FILE COPY ORIGINAL

Dear FCC: MB Docket NO. 04-233

I am a regular listener to K-Love radio station. This radio station has been a wonderful source of wholesome, family friendly, up- lifting and positive music for my family. We get news and local community concerts and family activities, that we learn about on K-Love, that tells us of fun family oriented activities that we can do together and helps take us out of the rat race of life and encourages us to spend time together, with other families who are like minded. This vital information is only available through Christian radio stations, other radio stations do not tell us when Christian artist will be in our city.

This radio station has become an important part of my daily routine and encourages me to worship God through songs of praise to him. I attribute feeling less, feelings of road rage, anger and frustration, while driving when I listen to K-Love, because the music puts you in a happy, peaceful, more complacent mood, so traffic problems do not get under my skin as much and I tend to be a safer, more accommodating driver. Too bad, we could not make everyone listen as they drive; it would probably cut down on road rage crimes.

At home the music helps to bring in a more peaceful atmosphere, and helps me deal with family members in a calmer, less confrontational way, as well. "When Ma Ma's happy the whole family is happy!) HA! K-Love is the best radio station on the air that I have found for my family; it encourages me and helps me through out my day. I get my work done more efficiently and with less stress, while listening to K-Love. I find I am happier and feel better at the end of the day, if I have listened to K-Love. On the days I do not, I tend to be more depressed and anxious about the problems facing me on a day to day basis.

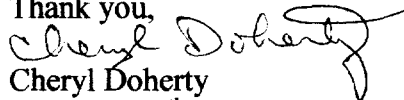

The positive message of hope, peace and love that only Jesus Christ can bring sustain and truly lift my spirits, and these messages are played in the music that K-Love offers and the prayers that they pray during the day. This station is a vital tool to help ward off depression in a very fast paced, stressed out, hard, cold world. K-Love makes a huge difference in my day!

I believe in my heart that listening to K-Love radio and other Christian music has helped me so much, that I was able to get off anti-depressant medication with in a couple of months of regular listening. I have been a regular listener for years now and have not required any more anti-depressant medication. Listening to K-Love is the only major change I have made in my day to day life. I have extreme problems in my life, a widowed mother I help financially, the responsibilities of caring for two children and marital stresses that come from overwhelming problems facing extended family members regarding health and financial problems. If things in the world become too hard for me to bear emotionally, I turn on my K-Love and soon I am singing and praising the Lord and my focus is off my problems and onto a more positive pursuit of praising God!

LIB/ABODE

Please keep it on the air; it is such a blessing to so many families, especially mine. It means so much to us, that we are financial supporters of K-Love on a monthly basis, even though it is not always easy to give to the station, I remember all they have done for me, through Christ and all the other people like me, they have helped and then I feel grateful to give to K-Love radio, because it is such a worthy, powerful, instrument of my Lord and Savior, Jesus Christ.

Thank you,

Cheryl Doherty
